

Noticed!

You have drawn the attention of the enemy. You may be fired at if the Threat Level is 5. You may become un-Noticed with a successful positioning action.

Exposed!

You are not in or near cover. You are hit on a 4 or above if under fire. You may regain cover with a successful positioning action. If both Exposed and Noticed, you lose Exposed first.

In Position!

You are in position to Mob a sentry, if you are not Noticed. Remove this when you Take them Out or take another positioning action.

Objective!

You must take two positioning actions to reach a Static Target. Or you can Rush it in one and become Exposed. You can't Rush if you're already Exposed.
